Background

Summary

I seek out opportunities to apply a combination of legal and technical expertise to new, challenging problems.

Experience

Technical Counsel

Google
July 2005 – Present (10 years)

I provide legal and technical expertise on patent litigation matters.

Prior to 2011, I was a senior software engineer in storage infrastructure.

Senior Software Engineer

Google
2005 – 2011 (8 years)

I built software to run and manage worldwide distributed storage systems.

Software Engineering Intern

Argonne National Laboratory
May 2002 – August 2002 (4 months)

I designed and implemented a storage system for climate metadata.

Certifications

Attorney →

State Bar of California
Starting December 2010

Patent Attorney →

USPTO
Starting August 2011
